

K-State TEACH

**A Collaboration between
the Departments of Curriculum
and Instruction, Physics, Geology,
Chemistry, and Division of Biology**

- **Do you want a challenge?**
- **Do you want to use your science knowledge to make a difference?**
- **Would financial assistance help you attain your goals?**

If you answer **YES** to these questions, apply to be a Noyce Intern, Noyce Scholar, or Noyce PostBac.

\$15,000-26,000 scholarships

Noyce Scholarship and Internship Programs

What is a Noyce Scholarship?

The Scholarship is for junior or senior students currently completing a baccalaureate science degree or post-baccalaureates holding a science degree who would like to be middle and high school teachers (grades 6-12) in biology, chemistry, earth science, and physics.

Noyce Scholars are junior or senior students who receive \$13,000 per year for up to two years. Scholarship recipients are required to teach two years in a high-need school district for each year of scholarship received. Scholars have eight years to fulfill this commitment.

Noyce Post-Bacs are Post-Baccalaureates who receive \$15,000 for one year. Scholarship recipients are required to teach two years in a high-need school district, and have eight years to fulfill this commitment.

Deadline: April 1

What is a Noyce Internship?

The stipend is for freshmen or sophomore students majoring in a science field with interest in teaching as a possible career. Paid internships are available to assist your exploration.

Noyce Interns are freshmen and sophomore students who are interested in considering a career as a secondary school teacher. Noyce interns will receive \$1,280 for 80 hours of work during summer or academic year.
